Deadline for manuscript
submissions:

20 June 2022

Message from the Guest Editors

Dear Colleagues,

This Special Issue will provide both academic and industry researchers a forum to present recent advances in the fields of blockchain-enabled IoT. We encourage authors to submit original research articles, case studies, comprehensive reviews and surveys, theoretical and critical perspectives on (but not limited to) the following topics:

- New architecture design for blockchain-enabled IoT;
- Blockchain-based IoT trust management;
- Blockchain-based security mechanism for IoT;
- Blockchain-enabled applications for IoT;
- Identity management of blockchain-based IoT;
- Performance evaluation of blockchain-based IoT;
- Blockchain-based IoT data management;
- High-efficiency consensus protocol for blockchain-based IoT.

Prof. Dr. Chengnian Long

Prof. Dr. Shaoliang Peng

Prof. Dr. Zhitao Guan

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and many other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q2 (*General Engineering*)
